

# 5 REASONS TO TRY

## CORE-FLO™ DC

## CORE-FLO™ DC LITE

Dual-Cure Core Build-Up, Endodontic Post Cement & Dentin Replacement Material

Rx Only

### 1 High Strength

Creates a strong foundation for crowns or direct restorations.

### 2 Available in Two Viscosities

That provide excellent flowability making it effective for core build-ups, post cementation and dentin replacement.

### 3 Unique Formulation

Allows it to be used effectively as a dentin replacement material; cuts like dentin.

### 4 Radiopaque

Easy to identify on radiographs for quick and effective diagnosis.

### 5 Reliable

Dual-cure chemistry that performs equally well in light-cure and self-cure modes.
